Dear Parent,

Thank you for your interest in the 6 Week Reading Boost. This program is like no other. How so?

- ▶ **Designed by neuroscientists** – these programs simultaneously increase processing skills and critical reading skills. No other reading program offers a more scientifically proven approach to helping students quickly improve reading comprehension skills.
- ▶ **Exceptional research and fast results** – more than 250 research studies prove that Fast ForWord can build the foundational language and cognitive skills that so many students need to succeed. For example, a study conducted over 3 schools showed that students who participated in these Reading programs achieved almost double the reading achievement of their peers in just 24 sessions ([click](#) to view study).

These individualised, targeted and intensive programs enable students to work at their own level and pace.

To enrol, go to [www.soniclearning.com.au/6wrbenrol](http://www.soniclearning.com.au/6wrbenrol) or call our team on 1300 135 334. We look forward to working with you.

Sincerely,

The Sonic Learning Team

## What's included in this course

- ✓ Individualised programs designed to make reading fun
- ✓ 6 weeks of unlimited access to the exercises (goal of 30 sessions)
- ✓ Choice of 30 or 50 minute per day protocol
- ✓ Train at home
- ✓ Weekly summary reports delivered via email
- ✓ Program specialist support via email whenever you need it
- ✓ Available on computer or iPad

Watch introduction video at [www.soniclearning.com.au/6wrb](http://www.soniclearning.com.au/6wrb)

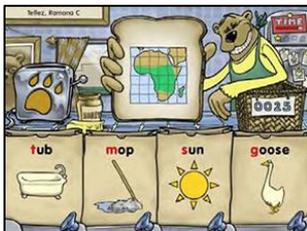

## Programs

Our health and education professionals will consult with you to determine the correct starting point, and the selected program will adapt to the individual student's ability.

### Fast ForWord Reading Readiness

Builds pre-reading skills, with a focus on letter recognition and naming, phonological awareness, and letter-sound associations.

### Fast ForWord Reading Level 1

Builds critical early reading skills, with an emphasis on phonemic awareness, early decoding skills, vocabulary knowledge and skills, and motivation for reading.

### Fast ForWord Reading Level 2

Consolidates early reading skills, with a focus on applying phonics and decoding strategies, improving word recognition, and understanding the rules for reading comprehension.

### Fast ForWord Reading Level 3

Concentrates on reading knowledge and fluency, with a focus on phonology and spelling, morphological properties and complexity, syntactic complexity, vocabulary and comprehension.

### Fast ForWord Reading Level 4

Focuses on applying knowledge of word origins, word forms, sentence structures, and punctuation rules to improve comprehension.

### Fast ForWord Reading Level 5

Concentrates on enhancing advanced reading comprehension skills and expanding vocabulary skills.

## Enrolment fees

- ✓ Only **\$15 or \$20 per session** (based on 30 sessions over 6 weeks, but you will have 24/7 unlimited access)
- ✓ 30 minute per day protocol: \$450 (can be paid **upfront** or in **3 monthly installments** of \$150 (plus a once-off \$20 debit fee))
- ✓ 50 minute per day protocol: \$600 (can be paid **upfront** or in **3 monthly installments** of \$200 (plus a once-off \$20 debit fee))
- ✓ **Sibling discounts:** 10% discount on both enrolments when you enrol two students (save \$90), 15% discount on all enrolments when you enrol 3 students (save \$202.50)
- ✓ **Discounted extensions:** at the end of the 6 week training block, you may purchase additional training time at a discounted rate of \$250 for 4 weeks, \$450 for 8 weeks or \$600 for 12 weeks.

If you purchase extensions for two of your children at the same time, a 10% discount will apply on both extensions. If you purchase extensions for three of your children at the same time, a 15% discount will apply on all extensions.

### To enrol

Go to [www.soniclearning.com.au/6wrbenrol](http://www.soniclearning.com.au/6wrbenrol)

or call our team on 1300 135 334.

## Frequently Asked Questions

### ***What age is the 6 week reading boost suitable for?***

This program is suitable for students in Prep (Pre-Primary / Reception) and above (yes, adults love these programs too). Students need to be able to read CVC (consonant-vowel-consonant) words such as bob, cat, cap and mug to train on Fast ForWord Reading 1, however children who do not have this skill can participate in a preparation program called Fast ForWord Reading Readiness. If you are unsure about your child's suitability for the program please contact us at [info@soniclearning.com.au](mailto:info@soniclearning.com.au) or 1300 135 334.

### ***Will this program also improve cognitive skills?***

Fast ForWord Reading programs include components that train cognitive skills, however their main focus is on reading skills. If your child has difficulties with auditory processing, memory, sequencing, attention, following instructions or language, we recommend beginning with Fast ForWord processing training (more information available at [www.soniclearning.com.au/fastforward](http://www.soniclearning.com.au/fastforward)).

### ***When does the course begin and end?***

Your course will begin on your first training day and end 6 weeks later. The Sonic Learning team will monitor and adjust your program during this time as needed. You will have unlimited access and do not need to worry about running out of exercises to do.

### ***Can I purchase additional training time?***

Yes, at the end of the 6 weeks you may purchase additional training time at a discounted rate of \$250 for 4 weeks, \$450 for 8 weeks or \$600 for 12 weeks.

If you purchase extensions for two of your children at the same time, a 10% discount will apply on both extensions. If you purchase extensions for three of your children at the same time, a 15% discount will apply on all extensions.

### ***How long does it take to complete one Reading program?***

As every individual is different, the time spent training on one program before moving to the next also varies from student to student. As a guide, completing one program usually takes approximately 6 weeks.

### ***What technology do I need?***

The course can be accessed on most Windows and Mac computers through your internet browser (we recommend Google Chrome browser), as well as on iPad 2 and above (through the app available in the iTunes store). Headphones are not mandatory but are recommended to help the student concentrate (we recommend stereo headphones that cover the whole ear). Parents monitoring their children should use a headphone double adaptor so they can also hear the sound.
