

6 WEEK READING BOOST

INFO PACK

Dear Parent,

Thank you for your interest in the 6 Week Reading Boost. This program is like no other. How so?

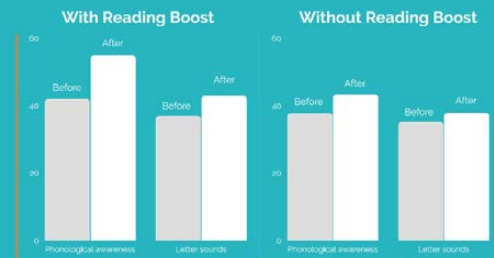

Designed by neuroscientists

These programs simultaneously target processing skills and critical reading skills. It's a scientifically proven approach to helping students quickly improve reading comprehension skills.

Exceptional research and fast results

Few if any programs are proven to produce such fast and lasting changes for struggling students. Visit soniclearning.com.au/research to see for yourself.

To enrol, call **1300 135 334** or go to www.soniclearning.com.au/6wrbenrol
We look forward to working with you.

In this study, students who used the reading boost programs for 24 sessions improved their reading twice as much as their peers did. [Click to view study.](#)

6 WEEK READING BOOST

INFO PACK

✓ Targets reading comprehension

This is the most important reading skill as it's the goal of reading.

✓ Adaptive

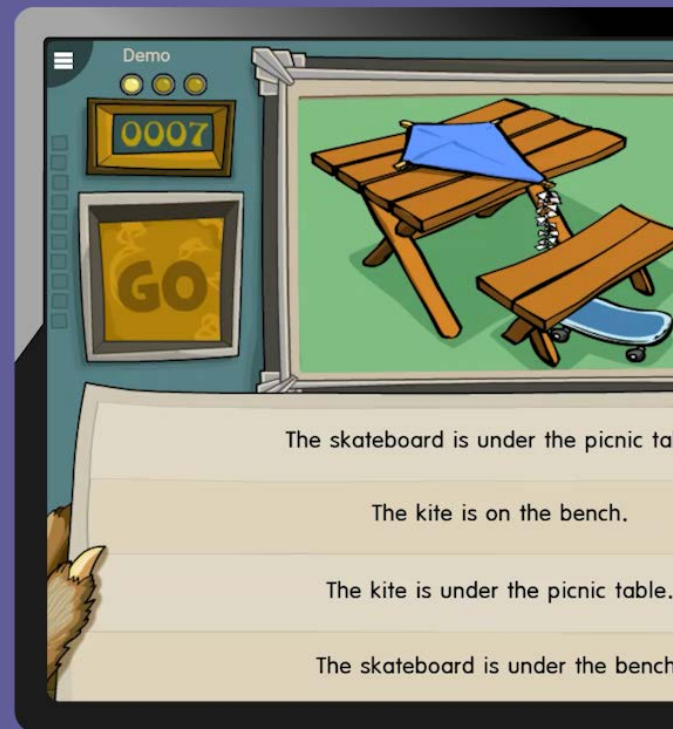

You'll use exercises created by neuroscientists that adapt to your individual level. That means your program won't leave you behind and you'll be able to take the time you need to master skills.

✓ Fun

No worksheets! Everything is game-based and done on your computer or iPad.

✓ Convenient

Train at home when it suits you.

6 WEEK READING BOOST

INFO PACK

What's included in this course

- ✓ **6 weeks of program access**
6 weeks of access to Fast ForWord Reading Boost programs.
- ✓ **Choice of training protocols**
Enrol in a 30 or 50 minute per day protocol. The goal over 6 weeks is 30 sessions but you can do more if you like.
- ✓ **Weekly summary report** via email.
- ✓ **Data monitoring and coaching**
You're not in this alone! Your own qualified coach, who is a health or education professional, will guide you through the program.
- ✓ **2 coaching calls**
Your coach will work with you to schedule two support calls during the 6 week course. After school/work appointments are available, and with almost 2 decades of experience with online programs, you're in the right hands.
- ✓ **Email support whenever you need it**
No question is a silly one – we're here to help!

Programs

Our health and education professionals will consult with you to determine the correct starting point, and the selected program will adapt to the individual student's ability.

Watch the intro video at www.soniclearning.com.au/6wrb

Fast ForWord Reading Readiness

Builds pre-reading skills, with a focus on letter recognition and naming, phonological awareness, and letter-sound associations.

Fast ForWord Reading Level 1

Builds critical early reading skills, with an emphasis on phonemic awareness, early decoding skills, vocabulary knowledge and skills, and motivation for reading.

Fast ForWord Reading Level 2

Consolidates early reading skills, with a focus on applying phonics and decoding strategies, improving word recognition, and understanding the rules for reading comprehension.

Fast ForWord Reading Level 3

Concentrates on reading knowledge and fluency, with a focus on phonology, morphological properties and complexity, syntactic complexity, vocabulary and comprehension.

Fast ForWord Reading Comprehension

Practice in reading for understanding with a wide range of texts, including fiction, expository prose, tables, instructions, diagrams, and flowcharts—the kinds of texts that students encounter when reading to learn across the subject areas.

Frequently Asked Questions

What ages is the 6 week reading boost suitable for?

This program is suitable for students in Prep (Pre-Primary / Reception) and above (yes, adults love these programs too). Students need to be able to read CVC (consonant-vowel-consonant) words such as bob, cat, cap and mug to train on Fast ForWord Reading 1. If you are unsure about your child's suitability for the program please contact us at info@soniclearning.com.au or 1300 135 334.

Will this program also improve cognitive skills?

Fast ForWord Reading programs include components that train cognitive skills, however their main focus is on reading comprehension skills. If your child has difficulties with auditory processing, memory, sequencing, attention, following instructions or language, we recommend beginning with Fast ForWord processing training (more information available at www.soniclearning.com.au/fastforward).

When does the course begin and end?

Your course will begin on your first training day and end 6 weeks later. The Sonic Learning team will monitor and adjust your program during this time as needed.

Frequently Asked Questions, continued

What other programs does Sonic Learning offer?

We're committed to offering the best online learning programs available, including:

NDIS programs – designed specifically for NDIS participants, this program includes all our other programs as well as premium support and NDIS friendly billing.

Fast ForWord – trains the skills needed for effective learning: auditory processing, auditory memory, attention, sequencing, and comprehension.

Reading Boost – supercharge your reading comprehension skills while also building your memory.

Reading Assistant – an online reading tutor that listens to students read aloud. This program mainly targets reading fluency.

3 Step Reading Program – this combines Fast ForWord, Reading Boost and Reading Assistant programs for a comprehensive approach to improving reading.

Cogmed – trains auditory and visual working memory in children, teenagers and adults.

TALi – trains attention skills in young pre-school children.

See www.soniclearning.com.au > [programs](#) for more information.

INFO PACK

Frequently Asked Questions, continued

How long does it take to complete one Reading program?

As every individual is different, the time spent training on one program before moving to the next also varies from student to student. As a guide, it usually takes around 6 weeks to complete one program.

What technology do I need?

Fast ForWord programs can be used on most Windows and Mac computers through your internet browser (we recommend Google Chrome), as well as on iPad with iOS 11.3 or later. Headphones are recommended to help the student concentrate. Parents monitoring children can use a headphone double adaptor so they can also hear.
