Dear Parent,

Thank you for your interest in the 3 Step Reading Program. This program is like no other. How so?

- ▶ **Designed by neuroscientists** – these programs build up the foundations of reading (listening, processing, memory, attention) while also building critical reading and writing skills (including building sentence and paragraphs, using punctuation and reading speed). It's a **comprehensive and scientifically proven approach** to helping students quickly improve reading skills.
- ▶ **Exceptional research, fast and lasting results** – more than 250 research studies prove that this program can build the skills that so many students need to succeed. The exercises we use are *proven* to improve auditory processing, following instructions, memory, attention, language, reading and writing. And studies show that the changes last, and students continue to improve even after completing the program. Few if any programs are proven to produce such **fast and lasting changes** for struggling students. Visit www.soniclearning.com.au/research to see for yourself.

If you're committed to helping your child improve fast and at their own level and pace, consider enrolling in this individualised, targeted and intensive program.

To enrol, go to www.soniclearning.com.au/3stepenrol or call our team on **1300 135 334**. We look forward to working with you.

Sincerely,

The Sonic Learning Team

The Steps

We recommend enrolling in a 12 month course to complete all the steps, but if you prefer a shorter program, you can do the steps separately in any order you like.

	Program	Skills targeted	Recommended time
	Fast ForWord Foundations	<ul style="list-style-type: none">✓ Memory✓ Attention✓ Sequencing✓ Processing speed & accuracy✓ Language comprehension	30 – 50 mins/day 5 days/week 3+ months
	Reading Boost	<ul style="list-style-type: none">✓ Decoding & sight words✓ Grammar✓ Syntax✓ Reading comprehension (sentence and paragraph level)	30 – 50 mins/day 3-5 days/week 3+ months
	Reading Assistant	<ul style="list-style-type: none">✓ Reading fluency✓ Reading comprehension (narrative level)	30 – 50 mins/day 5 days/week 6+ months

This program is specifically designed for students who have difficulties with the above skills and are *falling through the cracks*.

I doubt any parent would feel good hearing that their child had a learning difficulty. We all felt helpless, so the opportunity to do something constructive was greatly welcomed. Fast ForWord exceeded our expectations, and I would recommend other parents to prioritise this form of therapy, if it is suitable for their child.

- James' mother, WA

Frequently Asked Questions

What age is the 3 Step Reading Program suitable for?

This program is generally suitable for students in Prep (Pre-Primary / Reception) and above (yes, adults love these programs too). Suitability will depend on the individual student's skill level and our team can provide a demonstration. If you are unsure about yourself or your child's suitability for the program please contact us at info@soniclearning.com.au or 1300 135 334.

Will this program also improve cognitive skills?

We use a combination of 9 programs to train the cognitive skills needed for classroom learning, the cognitive foundations for reading, as well as language processing and reading skills. See www.soniclearning.com.au/3step for a demo video.

When does the course begin and end?

Your course will begin on your first training day and end 3, 6 or 12 months later depending on the package you choose. Sonic Learning's team will monitor and adjust your program during this time as needed. You will have unlimited access and do not need to worry about running out of exercises to do.

Can I purchase additional training time?

Yes, at the end of your subscription you may purchase additional training time in monthly blocks, with discounts provided for extensions of more than 1 month.

How long does it take to complete all the programs?

As every individual is different, the time spent training on one program before moving to the next also varies from student to student. The timings above are a guide. Generally in a 12 month period a student will be able to participate in all 3 steps of the program to some extent.

What technology do I need?

Fast ForWord programs can be used on most Windows and Mac computers through your internet browser (we recommend Google Chrome browser), as well as on iPad with iOS 11.3 or later. Headphones are recommended to help the student concentrate (we recommend stereo headphones that cover the whole ear). Parents monitoring their children should use a headphone double adaptor so they can also hear the sound.
